Sakari Viitala (s. 1994) lyömäsoittaja, musiikkipedagogi, musiikin maisteri, lyömäsoitinsoolisti ja säveltäjä.

Sakari Viitala on kokkolalaislähtöinen lyömäsoittaja, joka valmistui Keski-Pohjanmaan Konservatoriosta Mika Viikin johdolla vuonna 2014. Sieltä hän lähti Tampereelle jatko-opintoihin. Välillä hän suoritti varusmiespalveluksensa Puolustusvoimien Varusmiessoittokunnassa vuonna 2015. Sakari valmistui musiikkipedagogiksi Tampereen Ammattikorkeakoulusta vuonna 2019 opettajinaan Harri Lehtinen, Jyri Kurri, Janne Tuomi sekä Lassi Erkkilä. Sakarin AMK opinnäytetyö oli nimeltään ”*Opeta se säveltäen - lyömäsoitinyhtyeelle säveltäminen ja yhtyeen ohjaaminen pedagogisesta näkökulmasta*”. Sakari sävelsi omille oppilailleen teoksen, jonka kautta hän tarkasteli opinnäytetyönsä aihetta.

Tampereelta Sakari lähti jatko-opintoihin Tanskaan, Odenseen. Hän valmistui Musiikin Maisteriksi Syddansk Musikkonservatorium:sta (SDMK) vuonna 2021. Sakari halusi vielä opintojensa jälkeen syventää opintojaan marimban soitossa ja suoritettuaan valintakokeensa hyväksytysti hän aloitti lyömäsoitinopinnot SDMK:ssa solistiluokalla vuonna 2021.

Kesäkuussa 2023 hän valmistui lyömäsoitinsoolistiksi ja Debyytti-konserttiinsa Sakari sävelsi melkein 50 minuutin mittaisen, kolmiosaisen marimbakonserton, ”Influences”, joka sai kantaesityksensä 19.5.2023 Odensessa, Tanskassa. Hänen opettajinaan siellä neljän vuoden aikana olivat Søren Monrad ja Johan Bridger.

Solistiopintojensa ”Artistic Research” - taiteellisen tutkielman lopputyönä Sakari teki amerikkalaisen Clair Omar Musserin marimba-etydeistä ja -preludeista. Työ tarkasteli pedagogisesta näkökulmasta Musserin marimbasävellyksiä, jonka tuotoksena syntyi opaskirja oppilaille ja opettajille, kuinka harjoitella C. O. Musserin etydejä ja preludeita marimballa. Sakari esitteli työnsä lautakunnalle huhtikuussa 2023.

Sakari Viitala percussionist, music pedagogue, master of music, soloist and composer.

Sakari Viitala was born in Kokkola, Finland in 1994. He studied percussion at Central Ostrobothnia Conservatory with teacher Mika Viik and graduated in 2014. In 2014 he started his Music pedagogue studies at the University of Applied sciences in Tampere Finland. He studied percussion in guidance of Harri Lehtinen, Jyri Kurri, Janne Tuomi and Lassi Erkkilä. In 2019 after he graduated from Tampere University of Applied sciences, Sakari moved to Denmark, Odense city and studied 2 years Masters programme and 2 years in soloist class with wonderful and inspiring teachers: Søren Monrad (Denmark) and Johan Bridger (Sweden).

At his Debut concert on 19th of May 2023 Sakari premiered his own concerto for Marimba, Strings and Percussion called Influences. It is a combination of different musical influences that Sakari has got from different styles and genres of Music. Finnish Symphonic Metal band Nightwish has inspired Sakari’s music a lot!

Part of his Soloist studies Sakari made an pedagogical Artistic Research project ”A year with Clair Omar Musser” where he studied marimba etudes and preludes composed by legendary American marimba virtuoso Clair Omar Musser who lived in the 20th century. The research was about making a guidebook for percussion teachers and students on how to practice Musser’s marimba etudes and preludes, which are challenging to be played well!

Ice Dance (2011)

Ice dance syntyi tarpeesta valmistaa uutta lyömäsoitinyhtye-musiikkia Keski-Pohjanmaan Konservatorion lyömäsoitinyhtyeelle. Tuohon aikaan soitin yhtyeessä itse mukana oppilaana ja olin myös teoksen kantaesityksessä. Teoksen tilasi Keski-Pohjanmaan Konservatorion lyömäsoitinten soitonopettaja Mika Viik.

Ice dance on sävelletty lyömäsoitinkvintetille ja siinä on säveltasottomien lyömäsoittimien lisäksi myös melodialyömäsoittimia, kuten marimba, vibrafoni ja kellopeli, sinfonia- ja puhallinorkestereissakin käytettävät patarummut sekä metallofoneihin luokiteltavat putkikellot.

Ice dance on kolmiosainen teos, jossa kellopelillä ja vibrafonilla on solistiset stemmat. Marimba-stemma on kirjoitettu säestäväksi, mutta siihenkin on paikka paikoin kirjoitettu sooloja. Patarumpuja olen pyrkinyt käyttämään monessa sävellyksessäni bassolinjana. Sävellyksen ohjelmallinen ajatus tulee taitoluistelusta, minkä kilpailuja tapasin silloin tällöin seurata tv:stä.

Nämä pedagogisesta näkökulmasta syntyneet teokseni ovat kirjoitettu Keski-Pohjanmaan Konservatorion lyömäsoitinyhtyeen jäsenille sopiviksi aikana, jolloin itsekkin soitin siinä mukana. Näin ollen teosteni stemmat ovat kirjoitettu sillä ajatuksella, että ne ottivat huomioon kunkin soittajan silloisen tason. Tempon vaihdokset ja erilaiset musiikkityylit eivät olleet itse tarkoitus hyödyntää pedagogisesti, vaan ne syntyivät eri teoksiini luomisprosessissa.

Ice dances:sa on nättejä melodioita ja siinä on oppilaille sekä haastavaa että helpompaakin soitettavaa. Siinä esiintyy klasissessakin musiikissa tunnettuja sointu-yhdistelmiä, vaikkakin teoksessa kuuluu ehkä enemmän kevyestä musiikista saadut vaikutteet.

Ice Dance was composed by a need for new percussion ensemble pieces. The order was made by Sakari's percussion teacher in his hometown: Kokkola, Finland. Sakari was asked to compose from four to five new pieces per year for the Conservatory's ensemble to perform. Sakari premiered all the pieces with the ensemble and the teacher Mika Viik was conducting.

The idea for this piece comes from figure skating and I used to watch figure skating competitions from tv when I was teenager.

Ice dance is composed for percussion quintet and among unpitched percussion I wrote pitched percussion instruments such as marimba, vibraphone, glockenspiel, timpani and tubular bells which are commonly used in symphony orchestras.

Ice dance is composed in three movements. Glockenspiel and Vibraphone has soloistic parts. Marimba part is written to be in the accompaniment style, but it also has some solos and melody lines. In this piece I have written the bassline for Timpani and some tuning also needs to be made during the piece.

These percussion ensemble works are composed from a pedagogical perspective and for Ostrobothnia Conservatory percussion ensemble in Kokkola, Finland. The parts follow the curtain level of the ensemble and the parts are also individually made for every player keeping in mind what they are capable to play. Different music genres and styles weren't a pedagogical choice but came with my own intuition with each piece during the composing time.

Ice dance has beautiful melodies and for intermediate level students it is a good piece because it has both easy and challenging parts to study and play. The music has many influences from popular music but it also has some elements from classical music like chord progressions, tempo changes and so on.

A night scene of a beach with a glowing blue light display in the background. The sky is dark with some clouds. The light display consists of a grid of small lights that are illuminated in a blue color. The beach is visible in the foreground, and the water is dark. The overall mood is serene and modern.
